

DATACARD® ID WORKS® INTRO IDENTIFICATION SOFTWARE

ID Works Intro identification software provides a simple set of tools for start-up programs.

Entry level tools for ID card programs

Datacard® ID Works® Intro identification software offers a discrete set of features you can use to create and maintain a start-up ID program. When your program needs greater versatility for card creation and image handling, you can easily add new features and capabilities by upgrading to Datacard® ID Works® Basic, Standard or Enterprise identification software.

Intuitive, user-friendly software

- **Easy program management.** This easy-to-use software package makes it quick and convenient to design ID cards, as well as manage image capture and printing processes. Features include incorporating information from Microsoft® Access databases, encoding magnetic stripes and printing bar codes.
- **Convenient integration.** With ID Works Intro software, you can leverage the features of Datacard® SD Series or SP Plus Series card printers, as well as integrate with a wide variety of other brands of card printers.
- **User-friendly interface.** The software features an easy-to-use interface with intuitive point-and-click navigation. Other helpful features include sample card and form templates, and online support.
