CHOICE SUPPORT PROGRAM

COMPREHENSIVE - CUSTOMIZED - COST EFFECTIVE

ColorID's CHOICE program offers organizations a cost effective approach to support the evolution and advancement of identity management solutions institution wide.

Unlike many other "On-Site" service programs that offer limited flexibility and can be costly, ColorID's CHOICE program offers a comprehensive approach and the ability to build a custom support program – simply select from a full menu of service options.

Institution identity management and access technologies are rapidly changing and this can create many challenges for organization departments, key stakeholders & end-users.

ColorID's CHOICE program provides institution's strategic stakeholders and team members a collaborative approach with some of ColorID's highly experienced identity experts. Together, we can develop and support a customized, future forward identity road map that includes best practices and best in class products and services for your institution.

Best in class service & support on all our products & offerings, contact ColorID today to learn more about your CHOICE
