

presents

Return Safely.
Continue Confidently.

Working with your existing infrastructure, the JRNY suite of cloud services and mobile apps enable a safe return and will help you keep your institution open.

Symptom Surveys

Prompt any visitor or employee to answer a symptom survey before, during, or after their visit.

Contact Tracing

Securely recognize geographic proximity with others without passing information between devices.

Quarantine Management

Safely manage individual and group quarantine with tamper-proof verifications and geolocation.

Health & Safety Rules

Set and enforce capacity limits by zone and automatically ensure access entry requirements are met.

Contactless Survey Administration

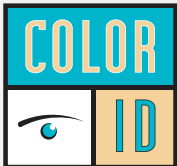

Exposure Notifications

Movement Permits

Enforce capacity limits
